ICM-1500 Card Mailer and Delivery System

The ICM-1500 offers a cost-efficient solution for professional users as well as an entry level for starters.

- Stand-Alone & Inline Functionality
- Production Performance up to 1.900 cph
- Card input with changeable magazine
- Magnetic stripe reading (LoCo&HiCo)
- Contact smart card reading
- Contactless smart card reading
- Top and bottom 1D barcode reading
- 2D barcode and Datamatrix reading
- Camera reading available
- 2 cards per carrier possible
- modular design
- processing of plastic & paper cards
- Microsoft©Word Templates
- Document feeder available
- compact design and footprint
- 24/7 operations
- flexible card positioning
- No card process, f.e. mailing of account statements
- New range of professional high- speed laser printers (HP – KYOCERA)

With the ICM-1500 series, which has been developed and manufactured by Innovative Card Systems, cards can be fixed on to individual carriers simply.

High Productivity. This powerful and productive system processes up to 1.900 cards per hour.

Folding Technologies. Combined with our ICF-2000 card folders, the ICM-1500 provides a variety of different folding technologies (Z-Fold and half-fold) and additional inserts in different formats.

Availability. The robust engineering and design stands for 24/7 availability and low maintenance costs.

Price/Performance. Looking at price, performance, functionality and flexibility, the ICM-1500 offers an outstanding return of investment and capital spending protection.

Technical Specifications

Basic Configuration:

- Card Input module for 300 ISO cards
- Card Reading Module Magnetic Stripe Reading LoCo and HiCo
- Carrier Input and Alignment station
- Labeling station
- Affixing station
- Starting performance from 500 cph – 1900 cph (by using Kyocera FS-9 sheet printer)
- A4, US-Letter or US-Legal, 80-120gr.

Folding Options:

- Z-fold
- Half-fold

Enveloping Options:

- DL size
- C5 size
- other folding options on request

Additional insert modules:

- several Insert feeders
- Barcode Selectable Inserts
- other inserting options on request

Available Options:

- contactless smart card reading
- contact smart card reading
- 1D barcode reading
- 2D / Datamatrix barcode reading
- Camera reading
- additional paper buffers
- sheet feeder for pre-printed documents
- sheet collator (for 3 personalized A4 or US-Letter size sheets)
- conveyor belt 100 cm
- pre-fold module for documents with extra length
- document flipping station
- envelope sealer
- ultra-sonic check (paper + card + label)
