Relay™ 1000 inserter

The easy way to automate mail folding and inserting.

Quickly fold, stuff and seal your envelopes.

Sending invoices, statements, letters and promotions is critical to your business. However, folding paper and stuffing envelopes by hand is an unnecessary waste of time and resources. For consistent, accurate, and dependable results, look to the Relay™ 1000 inserting system.

Don't just meet your goals. Exceed them.

A compact system designed to take the labor out of your hands, the Relay 1000 inserting system helps maximize your time and space wisely. That allows you to focus on what you do best. By automating your mailings, you'll be able to spend your time building your business and delivering value to your customers.

With the Relay 1000, you can:

- Correspond with customers more regularly.
- Add revenue-generating inserts.
- Improve the security of your mail with envelopes that stay sealed.
- Align mailing addresses for a precise fit in envelope windows, to help get your mail to its destination.
- Deliver frequent promotional mailings.

Relay™ 1000 features

Insert feeder

Envelope feeder

Control panel

Convenience feeder

Sheet feeder

Envelope feeder
60 envelope capacity also lets you load material on the fly for continuous operation.

Control panel
The simple interface makes job selection easy. Just press and go.

Convenience feeder
Give everyday mail a professional look by feeding up to 3-pages stapled or unstapled.

Sheet feeders
Load up to 80 sheets. A sheet feeder is included. A second sheet feeder is an available option.

Insert feeder
Add impact to your mail piece with a pre-folded brochure, notice or reply envelope.

Drive higher performance with the Relay™ 1000 inserting system.

Productivity: Automating mail folding and inserting saves time.

Accuracy: Eliminate costly delays in mailing due to manual errors.

Out of the box operation: Plug it in, load your materials and you're ready to produce.

Flexible processing: Invoices, statements, letters, promotions and other correspondence are folded, inserted and securely sealed in envelopes, ready for mailing.

Versatile: Automatically fold and insert up to two letter or legal sized sheets into a #10 envelope.

Drive sales: Add a promotional insert or reply envelope to your communications to help grow your business.

Save time and reduce the need for manual labor: Our system processes 15 pieces per minute and is six times faster than manual processing.
Speed cash flow: Invoices get out faster. That means that your payments come back to you sooner.

Easy to use: All the controls are right at your fingertips with prompts in English or Spanish—clearly displayed on the control panel.
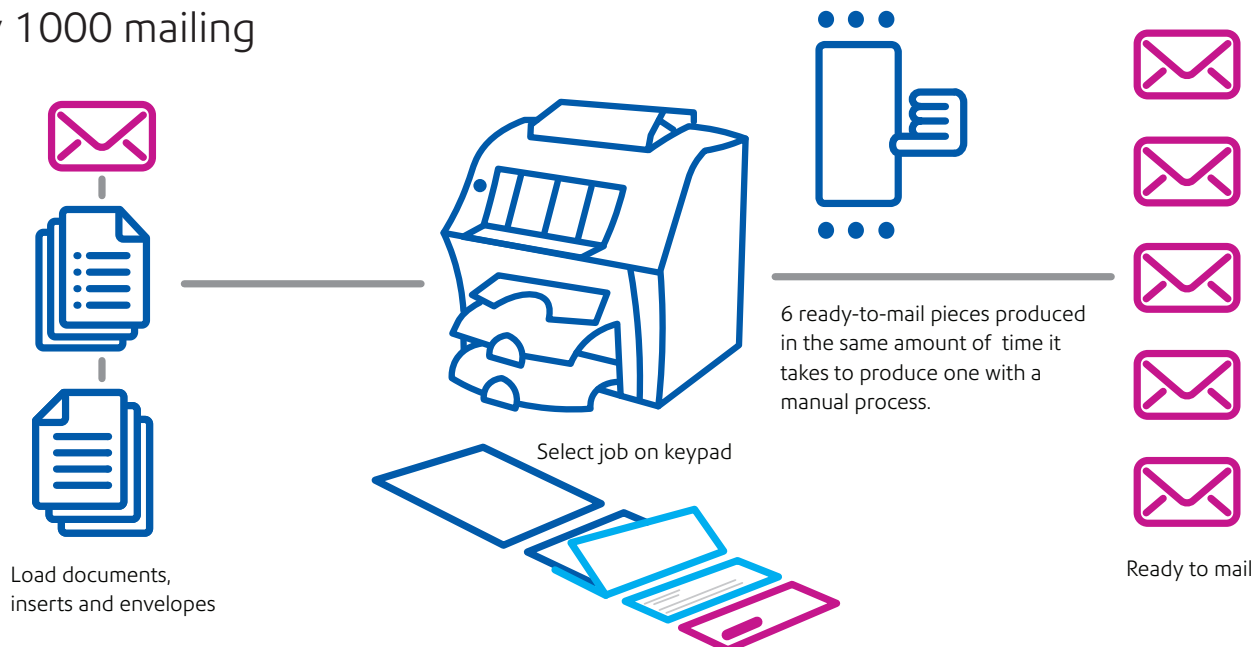

Notable attributes:
- Insert/fold setting
  - Programmable for fold/insert or fold-only modes
- Double document detection
- Resettable mail piece counter
- Selectable seal or no seal modes

Traditional mailing

Gather printed documents, inserts and outer envelopes

Manually fold documents

Select and include appropriate inserts
