DA80F™
Addressing printer

Fast, efficient, high productivity

Address postcards at speeds of up to 22,000 per hour (6 lines of text). Handles a variety of sizes by automatically feeding materials from 76 x 127mm up to 330 x 390mm and up to 3mm thick. The optional Conveyor/Stacker increases productivity even further.

Print onto a wide range of media including envelopes, postcards, and leaflets.

'Fixed Head' inkjet printing technology

The three print heads enable the destination address and barcode to be printed in one pass. Customised messages can also be printed to the right or left of the address. Resolutions of 150, 200, 300 & 600dpi horizontal and 600dpi vertical, allow printing of draft light, draft, letter light, letter, executive light and executive qualities. The printer has 12 internal, scaleable fonts plus it will print unlimited TrueType fonts with no effect on production speed. The DA80F offers black and spot colour printing.

Complete versatility

This printer can use the high capacity conveyor/stacker and the integrated dryer to increase your productivity and the quality of your job. Stacking the documents in a proper manner will allow you to match the envelopes and keep the benefit of the postal discounts.

The dryer allows high quality printing while maintaining the speed of the DA80F printer. In addition it widens the choice of materials you can run through the printer.

Easy to use

An advanced feeder design and sensitive thickness settings make it simple to adjust for materials of various sizes. The print heads are mounted on an innovative "swivel head" subsystem, making access to the print heads quick and easy.

Save money by maximising postal discounts

By using our optional FlexMail® software, you can earn postal discounts that will reduce your postage costs significantly on volume mailings.

FlexMail® also offers the options of de-duplication and address validation for your databases, again offering significant savings by not mailing to duplicated or non-existent addresses.

Pitney Bowes

Specifications

Maximum speed	Up to 22,000 items per hour (at 150dpi)
Print resolution	Up to 600 dpi
Media Sizes (mm)	Min 76 x 127 Max 330 x 390 Max Thickness 3mm
Dimensions (mm)	Height 380 Width 422 Depth 394 Weight 23kg
Internal fonts graphics & barcodes	Better memory management 32MB, means print more complex layouts, more reliability
Resolution	Six print qualities: draft light, draft, letter light, letter, executive light and executive
PC control panel Software	Monitor and control the printer from the PC; and get information such as piece count, current throughput and ink levels for each cartridge in the printer. Low ink management for print quality assurance
Drivers	Localised by Pitney Bowes, UK English, French, German, Italian, Spanish, Dutch... ask for others
Conveyor Stacker	Optional
Media Transport	Auto calibrating paper sensor, DC motor and high resolution encoder, ergonomic knob
Electrical	220/240Vac, 50Hz
Operation	Requires an IBM compatible PC running Microsoft Windows 3.1 with latest service pack up to XP
Input Stack	500 DL envelopes (unstuffed)
Output Stack	Continuous with optional Conveyor Stacker
Emulation	Hewlett Packard PCL5 subset
Interfaces	USB 2.0, Ethernet

Display Languages	UK English, French, German, Italian, Spanish, Dutch, Japanese... ask for others
Ink	Different inkjet cartridges are better suited for different applications. Pitney Bowes can help you pick the inkjet cartridge that works best for you and your application.

W984 conveyor/stacker specifications

Height	228mm
Width	381mm
Length	1.7m
Weight	26.3kg

Stacker Stand

Height	762mm (max) 610mm (min)
Width	381mm
Length	914mm
Weight	9kg

W864 Dryer (without stand)

Height	89mm
Width	330mm
Length	362mm
Weight	8.2kg

Did you know that...

All inkjet cartridges are not the same. You have many different choices when it comes to inkjet cartridges for your printers. There is a wide variety of HP45A technology inks.

There is no silver bullet when it comes to print quality – what works well in one print job may not work well in another. The key is to find the right combination of ink, settings and adjustments for a given print job to optimise print quality.

Your Pitney Bowes account manager will be happy to advise you on how toget the best results.
